

Job description

Intern – corporate nature strategies

The purpose of the role is to gain a rapid understanding of specialist environmental consultancy and to provide a wide range of support to projects, undertaking research and offering advice and written documentation for projects and proposals.

Responsibilities:

- Interpretation and analysis of a wide range of sustainability information
- Contributing to the analysis of data concerning corporate impacts on nature
- Benchmarking clients against peer companies and sustainability frameworks, primarily concerned with biodiversity
- Researching new sectors, clients and markets.
- Researching and creating case studies
- Writing and editing succinct reports, and delivering presentations
- Supporting the development of new proposals for work.
- Other duties commensurate with the role.

Essential attributes:

- One year or more of experience in a relevant field, such as corporate sustainability, or environmental (ecological) consultancy
- Familiarity with international biodiversity and sustainability issues, especially in relation to corporate strategies and actions.
- A willingness to work with the private sector, understand their needs, and operate strategically within client organisations
- Positivity and teamwork
- A Masters' degree or equivalent post-graduate studies in relevant disciplines

Desirable attributes:

- Consultancy experience
- Field experience related to biodiversity, conservation and/or ecology
- Demonstrated track record in project management
- Experience with application of circular economy
- Experience with science-based target setting and/or corporate disclosure
- Experience in one or more of the following sectors: automotive, fashion and apparel, food and beverage.
- Non-English language skills a bonus.

Role details

- 6-month fixed term employment, fulltime
- Benefits including holiday and option to join the work pension scheme
- Paid position

- Ideally based in the Cambridge area or UK (with travel to Cambridge).

About us

The Biodiversity Consultancy works with business and finance to integrate nature into sustainability strategy and practice. Since 2006 we have guided clients across sectors and around the world to respond to biodiversity- and nature-related risk and create new ways of working which deliver business value and safeguard our natural environment.

Our team are purpose-driven biodiversity and sustainability experts, trusted by household names, financial institutions, governments, and leading NGOs to deliver strategic guidance and deep technical expertise. From single sites to global systems, we equip our clients with the knowledge, capacity, and tools to create meaningful change and achieve their nature-related goals.

We place a high value on the experience and expertise of our staff and strive to create the conditions for individuals to grow and flourish in a stimulating, collaborative and flexible culture. Personal development is important to us and as such we offer a comprehensive, tailored induction and ongoing in-house and external training opportunities.

At heart we are committed conservationists, who believe we can make more of an impact by working with business. We invest in the environmental leaders of the future through our internship programme and donate 12.5% of our profits to environmental causes chosen by staff. More can be found about our work and our team at www.thebiodiversityconsultancy.com
